ODOR-FADE WARNING	
A GAS LEAK CAN CAUS DEATH.	E A FIRE OR EXPLOSION RESULTING IN SERIOUS INJURY OR
	ng chemical added to gas to make it detectable may not warn of a gas leak ne or natural gas to all persons in every instance.
Instances where the odor	ant in an odorized gas may be undetectable include:
the oxidation of rusting pip absorption into liquids.	or be eliminated for a variety of chemical and physical causes, including pes, adsorption into or sticking onto the interior of pipes or appliances, or erground leaks may de-odorize or remove odorant from the gas.
Number:100000013852	1/17

## Scentinel® T-50 Gas Odorant

Version 3.1

Revision Date 2020-12-14

Some people have a diminished ability, or inability to smell the stench. Factors that negatively affect a person's sense of smell include age, gender, medical conditions, and alcohol/tobacco usage.
The stench of odorized gas may not awaken sleeping persons.

• Other odors may mask or hide the stench.

• Exposure to the odor for even a short period of time, may cause nasal fatigue, where a person can no longer smell the stench.

Gas detectors listed by the Underwriters Laboratories (UL) can be used as an extra measure of safety for detecting gas leaks, especially under conditions where the odorant alone may not provide an adequate warning. Gas detectors emit a loud, shrill sound when gas is present and do not depend on sense of smell. Because the odor intensity can fade or people may have problems with their sense of smell, we recommend installing, per manufacturer's instructions, one or more combustible gas detectors, in suitable locations to ensure adequate coverage to detect gas leaks.

Educate yourself, your employees, and your customers with the content of this warning and other important facts associated with the so-called "odor-fade phenomenon."

#### **SECTION 2: Hazards identification**

#### Classification of the substance or mixture

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification	<ul> <li>Flammable liquids, Category 2</li> <li>Skin irritation, Category 2</li> <li>Eye irritation, Category 2A</li> <li>Skin sensitization, Category 1</li> </ul>
Labeling	
Symbol(s)	
Signal Word	: Danger
Hazard Statements	<ul> <li>H225: Highly flammable liquid and vapor.</li> <li>H315: Causes skin irritation.</li> <li>H317: May cause an allergic skin reaction.</li> <li>H319: Causes serious eye irritation.</li> </ul>
Precautionary Statements	<ul> <li>Prevention:</li> <li>P210 Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking.</li> <li>P233 Keep container tightly closed.</li> <li>P240 Ground/bond container and receiving equipment.</li> <li>P241 Use explosion-proof electrical/ ventilating/ lighting/ equipment.</li> <li>P242 Use only non-sparking tools.</li> <li>P243 Take precautionary measures against static discharge P261 Avoid breathing dust/fume/gas/mist/vapors/spray.</li> <li>P264 Wash skin thoroughly after handling.</li> <li>P272 Contaminated work clothing must not be allowed out of the workplace.</li> <li>P280 Wear protective gloves/ eye protection/ face protection</li> </ul>

entinel® T-50 Gas O	SAFETY DATA SHI
sion 3.1	Revision Date 2020-12
In case of eye contact	: Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
If swallowed	: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.
TION 5: Firefighting measu	res
Flash point	: 15°C (59°F) Method: Tagliabue Open Cup
Autoignition temperature	: 200°C (392°F)
Suitable extinguishing media	: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.
Unsuitable extinguishing media	: High volume water jet.
Specific hazards during fire fighting	: Do not allow run-off from fire fighting to enter drains or water courses.
Special protective equipment for fire-fighters	: Wear self-contained breathing apparatus for firefighting if necessary.
Further information	: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
Fire and explosion protection	: Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Hazardous decomposition products	: Sulfur. Sulfur oxides.
TION 6: Accidental release	measures
Personal precautions	: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
Environmental precautions	: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

SAFETY DATA SHEET

	ment
Respiratory protection	: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air- purifying respirators may not provide adequate protection.
Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection	: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.
Hygiene measures	: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

CTION 12: Ecological informa	tion
Toxicity to fish	
Tetrahydrothiophene	: LC50: > 24 mg/l Exposure time: 96 h Species: Danio rerio (Zebra Fish) Method: OECD Test Guideline 203
t-Butyl Mercaptan	LC50: 34 mg/l Exposure time: 96 h Species: Oncorhynchus mykiss (rainbow trout) semi-static test Method: OECD Test Guideline 203
Toxicity to daphnia and othe	er aquatic invertebrates
Tetrahydrothiophene	: EC50: 24 mg/l Exposure time: 48 h Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202
t-Butyl Mercaptan	EC50: 6.7 mg/l Exposure time: 48 h Species: Daphnia magna (Water flea) static test Method: OECD Test Guideline 202
Toxicity to algae	
Tetrahydrothiophene	<ul> <li>EC50: &gt; 153.2 mg/l</li> <li>Exposure time: 72 h</li> <li>Species: Pseudokirchneriella subcapitata (green algae)</li> <li>Method: OECD Test Guideline 201</li> </ul>
t-Butyl Mercaptan	EC50: 24 mg/l Exposure time: 72 h Species: Pseudokirchneriella subcapitata (green algae) Method: OECD Test Guideline 201
S Number:100000013852	11/17

# Scentinel® T-50 Gas Odorant

Version 3.1

Toxicity to bacteria	
Tetrahydrothiophene	: EC50: 1,530 mg/l Exposure time: 3 h Respiration inhibition Method: OECD Test Guideline 209
Biodegradability	
Tetrahydrothiophene	<ul> <li>aerobic Result: Not readily biodegradable.</li> <li>&lt; 10 % Testing period: 28 d Method: Directive 67/548/EEC Annex V, C.4.E.</li> </ul>
t-Butyl Mercaptan	<ul> <li>aerobic</li> <li>Result: Not readily biodegradable.</li> <li>6 %</li> <li>Testing period: 63 d</li> <li>Method: OECD Test Guideline 301</li> </ul>
Bioaccumulation	
Tetrahydrothiophene	: Bioaccumulation is unlikely.
t-Butyl Mercaptan	: Bioconcentration factor (BCF): 12 Bioaccumulation is unlikely.
Mobility	
Tetrahydrothiophene	: The product will be dispersed amongst the various environmental compartments (soil/ water/ air).
t-Butyl Mercaptan	: The product will be dispersed amongst the various environmental compartments (soil/ water/ air).
Results of PBT assessment	
Tetrahydrothiophene	: Non-classified PBT substance, Non-classified vPvB substance
t-Butyl Mercaptan	: Non-classified PBT substance, Non-classified vPvB substance
Additional ecological information Ecotoxicology Assessment	: Toxic to aquatic life with long lasting effects.
Short-term (acute) aquatic ha Tetrahydrothiophene	zard : Harmful to aquatic life.
t-Butyl Mercaptan	: Toxic to aquatic life.
Long-term (chronic) aquatic h Tetrahydrothiophene	azard : Harmful to aquatic life with long lasting effects.

	SAFETY DATA SHEET					
Scentinel® T-50 Gas Od	orant					
Version 3.1	Revision Date 2020-12-14					
t-Butyl Mercaptan	: Toxic to aquatic life with long lasting effects.					
SECTION 13: Disposal considerat	ions					
The information in this SDS per	tains only to the product as shipped.					
Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.						
Product	: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.					
Contaminated packaging	: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.					
<b>SECTION 14: Transport information</b>	on					
The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition). Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS) UN3336, MERCAPTANS, LIQUID, FLAMMABLE, N.O.S., 3, II, ENVIRONMENTALLY HAZARDOUS, (TERTIARY BUTYL MERCAPTAN)				
ransport in bulk according to ECTION 15: Regulatory inform	Annex II of MARPOL 73/78 and the IBC Code			
National legislation				
SARA 311/312 Hazards	: Flammable (gases, aerosols, liquids, or solids) Skin corrosion or irritation Serious eye damage or eye irritation Respiratory or skin sensitization			
CERCLA Reportable Quantity	: This material does not contain any components with a CERCLA RQ.			
SARA 302 Reportable Quantity	: This material does not contain any components with a SARA 302 RQ.			
SARA 302 Threshold Planning Quantity	: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.			
SARA 304 Reportable Quantity	: This material does not contain any components with a section 304 EHS RQ.			
SARA 313 Components	: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.			
Clean Air Act				
Potential Class	product neither contains, nor was manufactured with a Class I or II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR ubpt. A, App.A + B).			
This product does not conta Act Section 112 (40 CFR 6 <sup>2</sup>	in any hazardous air pollutants (HAP), as defined by the U.S. Clean Air ).			
DS Number:100000013852	14/17			

Version 3.1

Revision Date 2020-12-14

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489).

#### **US State Regulations**

Pennsylvania Right To Know	:	t-Butyl Mercaptan - 75-66-1
New Jersey Right To Know	:	Tetrahvdrothiophene - 110-0

- : Tetrahydrothiophene 110-01-0 t-Butyl Mercaptan - 75-66-1
- California Prop. 65 : This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

### Notification status

Europe REACH	:	This mixture contains only ingredients which have been registered according to Regulation (EU) No. 1907/2006 (REACH).
Switzerland CH INV United States of America (USA) TSCA Canada DSL	:	On the inventory, or in compliance with the inventory On or in compliance with the active portion of the TSCA inventory All components of this product are on the Canadian DSL
