

# **Safety Data Sheet** 664

### **Section 1: Product and Company Identification**

**Absolute Accuracy** 4591 S Wayside Dr Houston, TX 77087

Houston, TX 77087 (832) 571-2387

Product Code: 664

Synonyms: N/A

Recommended Use: CALIBRATION GAS

Usage Restrictions: INDUSTRIAL CALIBRATION GAS

### **Section 2: Hazards Identification**

**Hazard Classification:**Gases Under Pressure

**Hazard Statements:** 

Contains gas under pressure; may explode if heated

**Precautionary Statements** 

Storage:

Protect from sunlight.
Store in well-ventilated place.

### **Section 3: Composition/Information on Ingredients**

|          | CAS#      | Concentration |
|----------|-----------|---------------|
| Methane  | 74-82-8   | 2.2 %         |
| Oxygen   | 7782-44-7 | 18 %          |
| Nitrogen | 7727-37-9 | BALANCE       |

| <br>               |                 |             |
|--------------------|-----------------|-------------|
| Chemical Substance | Chemical Family | Trade Names |

# Section 4: First Aid Measures

|          | Skin Contact                           | Eye Contact                      | Ingestion                                                    | Inhalation                                                                                                                                                                                                               | Note to Physicians               |
|----------|----------------------------------------|----------------------------------|--------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| Methane  | Wash exposed skin with soap and water. | Flush eyes with plenty of water. | If a large amount is swallowed, get medical attention.       | If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. If breathing is difficult, oxygen should be administered by qualified personnel. Get immediate medical attention. | For inhalation, consider oxygen. |
| Oxygen   | None expected                          | None expected                    | Not likely route of exposure                                 | If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get immediate medical attention.                                                                                  | None                             |
| Nitrogen | Wash exposed skin with soap and water. | Flush eyes with plenty of water. | If a large amount is<br>swallowed, get<br>medical attention. | If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. If breathing is difficult, oxygen should be administered by qualified personnel. Get immediate medical attention. | For inhalation, consider oxygen. |

# **Section 5: Fire Fighting Measures**

|          | Suitable Extinguishing<br>Media                                                                                                                 | Products of Combustion                 | Protection of Firefighters                                                                                                                                                                                                                                                                         |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methane  | Carbon dioxide, regular dry chemical Large fires: Use regular foam or flood with fine water spray.                                              | Carbon monoxide, carbon dioxide, water | <ul> <li>Respiratory protection may be needed for frequent or heavy exposure. Any self-contained breathing apparatus with a full facepiece.</li> <li>Respiratory protection may be needed for frequent or heavy exposure. Any self-contained breathing apparatus with a full facepiece.</li> </ul> |
| Oxygen   | Non-flammable. Use extinguishing agent appropriate for the material which is burning. Use water in large quantities for fires involving oxygen. | Oxides of burning material             | <ul> <li>Respiratory protection may be needed for frequent or heavy exposure.</li> <li>None</li> </ul>                                                                                                                                                                                             |
| Nitrogen | Non-flammable. Use suitable extinguishing media for surrounding fire. Cylinders may rupture or explode if exposed to heat.                      | Non-flammable                          | <ul> <li>Respiratory protection may be needed for frequent or<br/>heavy exposure.</li> </ul>                                                                                                                                                                                                       |

### **Section 6: Accidental Release Measures**

|          | Personal Precautions                                                                                       | Environmental Precautions                                 | Methods for Containment                                                                                        |
|----------|------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Methane  | Keep unnecessary people away, isolate hazard area and deny entry. Ventilate closed spaces before entering. | Avoid heat, flames, sparks and other sources of ignition. | Stop leak if possible without personal risk.<br>Reduce vapors with water spray. Remove<br>sources of ignition. |
| Oxygen   | Keep unnecessary people away, isolate hazard area and deny entry. Ventilate closed spaces before entering. | Avoid contact with combustible materials.                 | Stop leak if possible without personal risk.                                                                   |
| Nitrogen | Keep unnecessary people away, isolate hazard area and deny entry. Stay upwind and keep out of low areas.   | No significant effects from contamination expected.       | Stop leak if possible without personal risk.                                                                   |

|          | Methods for Cleanup     | Other Information |
|----------|-------------------------|-------------------|
| Methane  | Not available           | Not available     |
| Oxygen   | Stop leak and ventilate | None              |
| Nitrogen | N/A                     | N/A               |

# **Section 7: Handling and Storage**

|          | Handling                                                                                                                                                              | Storage                                      |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| Methane  | Store and handle in accordance with all current regulations and standards. Grounding and bonding required. Subject to storage regulations: U.S. OSHA 29 CFR 1910.101. | Keep separated from incompatible substances. |
| Oxygen   | Store and handle in accordance with all current regulations and standards. Subject to storage regulations: U.S. OSHA 29 CFR 1910.101.                                 | Keep separated from incompatible substances. |
| Nitrogen | Store and handle in accordance with all current regulations and standards. Subject to storage regulations: U.S. OSHA 29 CFR 1910.101.                                 | Keep separated from incompatible substances. |

# **Section 8: Exposure Controls/Personal Protection**

|          | Exposure Guidelines                                                                                                                                                                                          |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methane  | METHANE, COMPRESSED GAS: ALIPHATIC HYDROCARBON GASES ALKANE (C1-C4): 1000 ppm ACGIH TWA METHANE: No occupational exposure limits established. ALIPHATIC HYDROCARBON GASES ALKANE (C1-C4): 1000 ppm ACGIH TWA |
| Oxygen   | OXYGEN, COMPRESSED GAS: No occupational exposure limits established.                                                                                                                                         |
| Nitrogen | NITROGEN, COMPRESSED GAS: NITROGEN: ACGIH (simple asphyxiant)                                                                                                                                                |

#### **Engineering Controls**

Handle only in fully enclosed systems.

|          | Eye Protection                                | Skin Protection                      | Respiratory Protection                                                                                                             |
|----------|-----------------------------------------------|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Methane  | Eye protection not required, but recommended. | Protective clothing is not required. | Respiratory protection may be needed for frequent or heavy exposure. Any self-contained breathing apparatus with a full facepiece. |
| Oxygen   | Eye protection not required, but recommended. | Protective clothing is not required. | Respiratory protection may be needed for frequent or heavy exposure.                                                               |
| Nitrogen | Eye protection not required, but recommended. | Protective clothing is not required. | Respiratory protection may be needed for frequent or heavy exposure.                                                               |

#### **General Hygiene considerations**

- Avoid breathing vapor or mist
- Avoid contact with eyes and skin
- Wash thoroughly after handling and before eating or drinking

# **Section 9: Physical and Chemical Properties**

|         | Physical State | Appearance | Color     | Change in Appearance | Physical Form | Odor     | Taste     |
|---------|----------------|------------|-----------|----------------------|---------------|----------|-----------|
| Methan  | Gas            | Colorless  | Colorless | N/A                  | Gas           | Odorless | Tasteless |
| е       |                |            |           |                      |               |          |           |
| Oxygen  | Gas            | Clear      | Colorless | N/A                  | Gas           | Odorless | Tasteless |
| Nitroge | Gas            | Clear      | Colorless | N/A                  | Gas           | Odorless | Tasteless |
| n       |                |            |           |                      |               |          |           |

| Methane  | Not available   | Not available | Not available        | No data                      |
| Oxygen   | Not known.      | Available.    | Available.           | No data                      |
| Nitrogen | Not hazardous   | Not available | Not available        | No data                      |

# Section 12: Ecological Information

**Fate and Transport** 

|              | Eco toxicity                                                                                                                                                | Persistence / Degradability                                                   | Bioaccumulation / Accumulation                             | Mobility in Environment                                 |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------|------------------------------------------------------------|---------------------------------------------------------|
| Methan<br>e  | Fish toxicity: Not available Invertibrate toxicity: Not available Algal toxicity: Not available Phyto toxicity: Not available Other toxicity: Not available | Relatively non-persistent in the environment. Moderately volatile from water. | Accumulates very little in the bodies of living organisms. | Not expected to leach through the soil or the sediment. |
| Oxygen       | Fish toxicity: Not available Invertibrate toxicity: Not available Algal toxicity: Not available Phyto toxicity: Not available Other toxicity: Not available | Not available                                                                 | Low bioaccumulation                                        | Not available                                           |
| Nitroge<br>n | Fish toxicity: Not available Invertibrate toxicity: Not available Algal toxicity: Not available Phyto toxicity: Not available Other toxicity: Not available | Not available                                                                 | Not available                                              | Not available                                           |

### **Section 13: Disposal Considerations**

| Methane  | Dispose in accordance with all applicable regulations. Subject to disposal regulations: U.S. EPA 40 CFR 262. Hazardous Waste Number(s): D001. |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Oxygen   | Dispose in accordance with all applicable regulations. Subject to disposal regulations: U.S. EPA 40 CFR 262. Hazardous Waste Number(s): D001. |
| Nitrogen | Dispose in accordance with all applicable regulations.                                                                                        |

# **Section 14: Transportation Information**

#### U.S. DOT 49 CFR 172.101

#### **DOT Information For This Mixture**

| Shipping Name      | Compressed gas, n.o.s. (Nitrogen, Oxygen) |  |  |
|--------------------|-------------------------------------------|--|--|
| UN Number          | UN1956                                    |  |  |
| Hazard Class       | 2.2                                       |  |  |
| Hazard Information | Non-Flammable Gas                         |  |  |
|                    |                                           |  |  |
|                    |                                           |  |  |
